

# Career and Talent Development Career Guide

## Degree in Crime Science

*Steven J. Green School of International and Public Affairs*

### Career Guide

*In the Crime Science major, courses in Criminal Justice and cross-listed courses in other disciplines enhance students' knowledge about criminological theory, forensic science, and the significance of crime studies as it applies to national security and criminal investigations. Students gain tools for analyzing the sociological implications of crime, relationships between victims and perpetrators, and analysis of physical evidence. Major courses foster social justice advocacy, critical thinking, and crime prevention methodology.*
