

GC Charger Loaner Program

Procedures

1. Rent a power bank by stopping by the Computer Lab (GC 1205) located at the Graham Center.
2. Pick up charging stations during regular Computer Lab hours. A valid government-issued photo ID such as USA Driver's License, any Passport, or USA Permanent resident card must be exchanged for a power bank.
3. Rentals are due back at midnight the same day it was checked out.
4. Power banks will go through an inspection upon return. Customer will be notified of any charges once the inspection has been completed.
5. If equipment is damaged or lost, you will be contacted by a Computer Lab employee. Costs are based on the current retail value of the item or replacement part. Replacement costs and/or late fees may be applied.
