  - Please come prepared with any updates that need to be discussed.
- On Thursday, June 6th I am meeting with Gwyneth Monterroso in regards to her initiatives.
  - “This is upcoming fall semester, I am working under the Center for Leadership and Service. I'm part of the Campus Voting Project. We want to host several voter registration drives throughout the semester to enhance our local democracy and increase political student engagement. I would love to work with SAC to make FIU a voter friendly campus where FIU Panthers activate and use their voices as constituents.
- **I am also planning to meet with Yeni Simon, I will be reaching out to you all to see if you could come to the meeting as well. I will keep you posted.**
  - Seeking to do an event collaboration with SGA to promote registering to vote
  - Free food ---> possibly funded by SGA
  - Mass emails on event from external relations

## Expectations for our next meeting:

- I would like all you to begin contacting student organizations on campus that you would like to meet with in order to get to know the students working in the organization
- **I would like for next meeting for you all to at least have 4 student organizations that you will be keeping in contact with during the fall semester.**
- I would like after that for you to take it upon yourselves to reach out to their members or executive board members to find out how our committee can support their efforts as a FIU organization
